

We make payroll processing faster, easier, and more profitable for you.

We created the first truly cloud-based payroll processing service exclusively for accountants like you. If you're seeking a way to revamp your payroll practice and make more money, you owe it to yourself to give Payroll Relief a closer look.

The capabilities of Payroll Relief rival those of major payroll processing centers, allowing you to create a highly-efficient and streamlined operation that can significantly increase both your profits and your clients' satisfaction, and can make your practice highly competitive with the major service bureaus. That's key to your growth and success.

What sets Payroll Relief apart from other payroll solutions?

**Winner of the CPAPA
Tax & Accounting
Technology Innovation
Award**

Unparalleled Automation

Using the latest technologies, Payroll Relief has automated payroll processing to an exceptional degree for maximum efficiency.

You can configure Payroll Relief to perform direct deposit, tax payment, tax form e-filing, and child support-related tasks automatically, on time, with 100% guaranteed accuracy to greatly reduce compliance headaches.

You also have the flexibility to perform any of these tasks manually.

Minimized Data-Entry and Printing Time

Payroll data entry and check-printing and mailing can be time consuming and error-prone tasks. Payroll Relief significantly reduces staff-hour needs, and increases profits, with flexible options that minimize data-entry time and reduce the time and effort involved in printing and mailing paychecks.

◆ **Payroll Entry Options:** Payroll Relief provides simple exception-based data entry screens into which your firm's staff can enter payroll data. In addition, Payroll Relief offers two easy data-entry options for your clients. You can provide clients with customized, system-generated spreadsheets into which they enter payroll data that you can then import

into Payroll Relief with a single mouse click, or you can give them direct access to Payroll Relief's data entry screens and let them enter payroll data themselves. Most large clients prefer this option, further reducing your staff-hour needs and making payroll services a lot more profitable for you.

“ Our payroll processing time has been reduced by 75%. ”

— Zahid R., CPA

◆ **Check Printing Options:** In addition to being able to print checks in batch for multiple clients as you do now, you can also choose to minimize the time, effort, hassle, and cost of printing and mailing paychecks by generating a PDF of paychecks and sending it to your clients in a password-protected email, allowing them to print paychecks in their own offices. Clients like this option because it saves them time and shipping costs.

Regardless of whether you or your clients enter payroll data or print paychecks, Payroll Relief's easy-to-use data-entry screens and printing options greatly reduce data-entry and paycheck processing time.

Next-Generation Batch Processing

Payroll Relief takes batch processing to a new level. Not only can you batch-print paychecks, W-2s, and 1099s, but you can also securely email W-2s and 1099s to employers, release these documents to employee portals, or

e-file W-2s in batches, processing multiple clients in a single operation. In addition, you can securely email paychecks with a customized report set to selected clients in batch.

Faster and Easier Client Communication

When you process payrolls, you constantly need to communicate with your clients, whether it's to obtain payroll information, verify employee data, confirm benefit information and current SUTA rates, or to send quarterly compliance reports. With Payroll Relief, you can email multiple selected clients to send or request information with a single mouse click.

Included Employee Portals

Because employees and contractors increasingly use convenient and secure employee portals to access pay-stubs and W-2s or 1099s or change personal information, Payroll Relief includes unlimited employee portals at no cost.

Effective Payroll Business Management Tools

Payroll Relief's built-in tools and reports give you the information you need about clients and payroll activities and make it easy to streamline your entire payroll processing business, helping you generate more profits while spending less time on tasks.

“ We're earning 70% profit on each payroll with Payroll Relief. You can make money at this if you do it right. ”

— Jason F., CPA

Minimize Account Receivables

Using our ACH services (for a nominal fee per transaction), you can be paid automatically within a few days of processing a payroll.

Low All-Inclusive Fee

You get all of our services, including direct deposit, tax deposit, e-filing of quarterly and yearly compliance forms, W-2s, W-3s, and 1099s for a low per-paycheck fee of **as little as 45¢ per paycheck**. We don't nickel and dime you!

Payroll Relief Features

Streamlined Payroll Processing

Payroll Relief's highly intuitive interface minimizes the learning curve and streamlines your workflow, and, because it's fully Web-based, you can process payrolls 24/7 from anywhere, from your smartphone or tablet, using our secure server.

“ Thank you for listening to customers and bringing about some very positive updates! ”

— Tyler W.

Payroll Relief provides multiple time-saving data entry methods:

- ◆ Exception-based payroll entry streamlines the payroll process, requiring entries only for items that differ from the employee's usual hours or amounts, while flexible formats allow you to enter data for multiple employees on a convenient spreadsheet-like screen, or use a single-employee screen for detailed entries such as fringe benefits or third-party sick pay. Options enable you to override system calculations or enter wage adjustments, as needed.
- ◆ Simple client data entry, either directly or using an intuitive Excel template that clients can edit and easily import back to Payroll Relief, and seamless data entry and review from mobile devices such as smartphones and tablets.
- ◆ Third-party sick pay, dependent care benefits, health insurance for 2% shareholders, manual checks, and support for third-party payments.
- ◆ Secure access and flexible permissions allow payroll entry, employee maintenance, and check printing from remote locations. Multiple levels of review and correction, such as pre- and post-approval reports, the ability to override system calculations and to void checks issued in error, and extensive diagnostics that include critical warnings of events that could prevent or delay payroll processing, ensure accuracy and easy correction, if necessary.
- ◆ Easy integration with other payroll systems, including the ability to import payroll data from time and attendance programs such as Swipeclock or Advantek.

Highly Automated Compliance

Payroll Relief handles virtually all compliance faster and more automatically than any other payroll system:

- ◆ Offers e-services support for federal and state electronic payments, e-filing, direct deposit, child support, and electronic processing charges.
- ◆ Supports printing and e-filing of federal and state forms and coupons, with an automatic e-filing option, electronic filing of Forms W-2, W-3, 1099-MISC, and 1096, and signature-ready tax forms for federal and all 50 states, including filing instructions.
- ◆ Schedules tax liabilities for payment on the due date automatically, as payrolls are approved, with optional features that automatically process all tax payments and forms, and enable you to specify different terms for tax payments as needed, or pre-fund electronic payments incrementally as each payroll is processed.
- ◆ Includes flexible options to accommodate changes to scheduled due dates, and enable you to pay early and schedule additional payments.

“ I’ve more than doubled my payroll billing in just two years using Payroll Relief. ”

— Kristi D.

Effective Management Tools

Payroll Relief provides a comprehensive set of tools to manage your payroll practice. You can easily review and monitor processes for your entire practice, making the system your own payroll service bureau.

- ◆ Employee Portals enable employees to securely view payroll information, maintain address information, and view and print pay statements and W-2s or 1099s.

- ◆ Automatic emails remind employers about upcoming payrolls and federal and state tax deposits, e-services notifications, and more.
- ◆ Reminders and NSF notifications are emailed automatically, and can also be sent as text messages to designated clients.
- ◆ Intuitive screens provide a full picture of activities for any client, including for in-progress or completed payrolls, and the status of all e-services applications submitted by your payroll clients.
- ◆ A convenient Dashboard monitors key payroll and workflow information for each client, and the comprehensive Snapshot screen allows you to monitor key information for all of your clients at once.
- ◆ Easily review federal tax liability for the look back period required in determining employer’s tax deposit frequency.
- ◆ Targeted logs provide an audit trail of changes to sensitive payroll data.
- ◆ Convenient batch features streamline client processing, enabling you to print checks and W-2s for multiple employers in batch.
- ◆ Client communication lets you email information requests and reports to multiple clients in batch, track and monitor client activity from a single screen, and log all system-generated communications sent to your payroll clients.
- ◆ Unique cloud-based design provides flexible, configurable permissions to give individual clients access to the payroll tasks best suited to their abilities, to streamline your workload and minimize the risk of client error.
- ◆ Easy collaboration with clients without direct access to Payroll Relief using any of a number of intuitive template spreadsheets into which clients enter payroll and setup data which you can then easily import into Payroll Relief, saving considerable time and effort during setup and payroll processing.

Extensive Functionality

Payroll Relief's extensive capabilities let you quickly and easily process payrolls of varying complexities for companies with 1 to over 1,000 employees. Payroll Relief offers:

- ◆ **Multiple pay schedules** for employees and contractors, and **unlimited customizable pay types**, multiple allowances and reimbursements, and multiple checks for an employee per pay period.
- ◆ **Easy migration from other payroll systems** using intuitive spreadsheets to enter employee or contractor data for import.
- ◆ **Easy integration with accounting programs** including Accounting Power, QuickBooks, CS Accounting, and Peachtree, or generic CSV files.
- ◆ **Automatic verification of Social Security Numbers** using the SSA Verification Service.
- ◆ **Performs calculations for all 50 states and localities**, DC, and Puerto Rico.
- ◆ **Support for all retirement plans**, with multi-tiered employer match and a fully customizable Retirement Transmittal Report for plan administrators.
- ◆ **Unlimited customizable deductions**, including electronic payment of child support and the ability to track goal amounts for deductions such as loan repayments.
- ◆ **Full support for direct deposit**, including support for multiple accounts for each employee, and for employee contributions to an HSA.
- ◆ **Ability to allocate payroll expenses** by department, job, and worker's compensation classification, and track workers' compensation categories for computation of premiums.
- ◆ **Flexible check printing options** with support for multiple formats, digital signatures, and company logos. Checks can be printed in batch for multiple employers, or emailed to clients for printing at their locations.
- ◆ **Handy Net-to-Gross Calculator.**

Comprehensive Reporting

Payroll Relief supplies a comprehensive selection of numerous payroll, compliance, employer, and employee reports with multiple output options to streamline reporting.

- ◆ Well-designed payroll, compliance, employer, and employee reports provide a wealth of detailed information about every aspect of the payroll process that you, as a payroll provider, will need.
- ◆ You can create your own Report Sets to include the reports you need to send to employers efficiently.
- ◆ Flexible email options enable you to send reports to employers automatically.
- ◆ Archiving options enable you to automatically archive payroll and compliance reports to Cloud Cabinet, our state-of-the-art document storage and sharing application.

Unparalleled Support

A wide array of training and procedural materials and free live customer support ensure that you have all the resources you need to process payrolls and manage compliance with ease:

- ◆ **Free online and telephone support**, and live chat support for rapid answers to quick questions.
- ◆ **Extensive training videos** introducing major functional areas.
- ◆ **Comprehensive context-sensitive online help and FAQs** with step-by-step procedures to help you use screens and features.
- ◆ **Informative series of live and recorded webinars** providing in-depth information about the benefits of using specific features and functionality.

Unprecedented Pricing

Process all of your payrolls for one full year for just \$1,495.*
